

Where to obtain supplies of Message In A Bottle containers?

The South East Coast SHA DNACPR principles indicate that, for a patient at home, a DNACPR order should be stored in a location which is easy to identify for an ambulance crew in an emergency.

One such method in the Message In A Bottle (MIAB) system sponsored by LIONS Clubs. The DNACPR order is placed in the patient's fridge and an identifying sticker is placed on the back of the front door – ambulance crews know to look for the sticker.

MIAB bottles are supplied by Lions Clubs – you can find more information under Health Projects on the Lions Club website through this link <http://www.lionsmd105.org>

There are around 15 Lions Clubs covering the Coastal West Sussex area and your local one may also be found under Contact us on the Lions Club website through this link <http://www.lionsmd105.org>

Alternatively the following people are local leads for supplying MIAB:

Chichester Lions 0845 833 9605

Worthing Lions 01903 535784

Midhurst Lions 01730 813606

Bognor Lions 0845 833 7495

Littlehampton Lions 0845 833 2748

If these people are not able to provide MIAB containers they will know who you should contact
